Public Seminar: Requirements for Toys and Food Contact Products to GCC Market

The Gulf Cooperation Council (GCC) Standardization Organization (GSO) has announced the official launching of the GSO Certificate Tracking System on 26 June 2016. This system offers pertinent information to the relevant authorities responsible for Border Control and Market Surveillance in GSO member states.

Effective from 1 January 2017, all products which are subject to conformity assessment involving intervention of notified bodies, shall bear the G-Marking with the number of notified body and the QR-code as mandatory requirement

Taking this into consideration, Intertek Hong Kong and the School of Science and Technology of the Open University of Hong Kong co-organize a technical seminar in regard to most up-to-date requirements and procedures on GCC for toy testing. We will also take the opportunity to share the requirements of food contact items to GCC markets to make the seminar even more informative.

Seminar Details

Date	Mar 17, 2017 (Friday)
Time	2:30PM - 5:00PM
Venue	<p>The Open University of Hong Kong (81 Chung Hau Street, Ho Man Tin, Kowloon, E0311, 3 / F., Jubilee College)</p> <p>Click here for detailed route map</p>
